

1. Phospholipase A2 receptor 1 epitope spreading at baseline predicts reduced likelihood of remission of membranous nephropathy. B. Seitz-Polski, H. Debiec, A. Rousseau, K. Dahan, K. Zaghrini, C. Payré, V.L.M. Esnault, G. Lambeau, P. Ronco. J. Am. Soc. Nephrol. 2017 (in press)
2. Anti-phospholipase A2 receptor antibody levels at diagnosis predicts spontaneous remission of idiopathic membranous nephropathy. P. Jullien, B. Seitz-Polski, N. Maillard, D. Thibaudin, B. Laurent, E. Ollier, E. Alamartine, G. Lambeau, C. Mariat. Clin. Kidney J. 2017 Apr;10(2):209-214.
3. Glomérulonéphrite extramembraneuse: physiopathologie et histoire naturelle. B. Seitz-Polski, G. Lambeau, V.L.M. Esnault. Nephrol. Ther. 2017, 13 Suppl 1: S75-S81.
4. Epitope spreading of autoantibody response to PLA2R1 associates with poor prognosis in membranous nephropathy. B. Seitz-Polski, G. Dolla, C. Payré, C. Girard, J. Polidori, K. Zorzi, E. Birgy-Barelli, P. Julien, C. Courivaud, T. Krummel, S. Benzaken, G. Bernard, S. Burtey, C. Mariat, V.L.M. Esnault\*, G. Lambeau\* (\* co-last author). J. Am. Soc. Nephrol. 2016, 27: 1517-33.
5. Cross-reactivity of anti-PLA2R1 antibodies to rabbit and mouse PLA2R1 antigens and development of two novel ELISAs with different diagnostic performances in idiopathic membranous nephropathy. B. Seitz-Polski, G. Dolla, C. Payré, N.M. Tomas, M. Lochouarn, L. Jeammet, C. Mariat, T. Krummel, S. Burtey, C. Courivaud, W. Schlumberger, K. Zorzi, S. Benzaken, G. Bernard, V.L.M. Esnault\*, G. Lambeau\* (\* co-last author). Biochimie 2015, 118: 104-15.
6. New physiopathological roles for the PLA2R1 receptor in cancer and membranous nephropathy. C.A. Girard, B. Seitz-Polski, G. Dolla, A. Augert, D. Vindrieux, D. Bernard, G. Lambeau. Med. Sci. (Paris). 2014 May;30(5):519-25.
7. Thrombospondin type-1 domain-containing 7A in idiopathic membranous nephropathy. N.M. Tomas, L.H. Jr Beck, C. Meyer-Schwesinger, B. Seitz-Polski, H. Ma, G. Zahner, G. Dolla, E. Hoxha, U. Helmchen, A.S. Dabert-Gay, D. Debayle, M. Merchant, J. Klein, D.J. Salant, R.A.K. Stahl, G. Lambeau. N. Engl. J. Med. 2014 Dec 11;371(24):2277-2287
8. Prediction of membranous nephropathy recurrence after transplantation by monitoring of anti-PLA2R1 (M-type phospholipase A2 receptor) autoantibodies: a case series of 15 patients. B. Seitz-Polski, C. Payré, D. Ambrosetti, L. Albano, E. Cassuto-Viguié, M. Berguignat, A. Jeribi, M.C. Thouret, G. Bernard, S. Benzaken, G. Lambeau\*, V.L.M. Esnault\* (\* co-last author). Nephrol. Dial. Transplant. 2014, 29: 2334-42.
9. Development of a standardized ELISA for the determination of autoantibodies against human M-type phospholipase A2 receptor in primary membranous nephropathy. C. Dährnich, L. Komorowski, C. Probst, B. Seitz-Polski, V.L.M. Esnault, J.F. Wetzels, J.M. Hofstra, E. Hoxha, R.A. Stahl, G. Lambeau, W. Stöcker, W. Schlumberger. Clin. Chim. Acta. 2013, 421: 213-8.
